- FRONTED DEVELOPER
- UI / UX / MUI
- HTML
- CSS - BOOTSTRAP - SASS
- JAVASCRIPT
- VUE.JS
- WEB DESIGN

LANGUAGE

🇺🇸 English

🇨🇴 Spanish

I am passionate about development, programming and everything related to design and construction in the fascinating world of technology and the web. My focus is Frontend development, and I have experience and knowledge in a variety of essential tools, such as:

🎨 UI/UX Design: Work with Figma to create attractive and functional designs.

🚀 Web Technologies: I use HTML, CSS, SASS, Tailwind and Bootstrap to build polished user interfaces.

⚡ Javascript: I use this dynamic programming language to add interactive functionality to my projects.

🌐 Vue.js: I develop single page web applications (SPA) and progressive web applications (PWA) with this powerful framework.

🔗 Version Control: I master version control tools such as Git, GitHub, and GitLab to collaborate on projects and manage my code effectively.

If you are looking for someone who can bring creativity, technical experience, and a strong commitment to quality to your projects, do not hesitate to contact me!
